BROW BANANZA!!! £50 OFF BESPOKE SEMI PERMANENT MAKE UP

Home of Bespoke Semi Permanent Make Up by Judith Mulgrew, to celebrate 10 years in business Skin Medi Spa are offering readers of Ulster Tatler £50 off any semi permanent make up treatment.

Kiss lengthy make up routines goodbye with this get up and go technique of having a Semi Permanent Make Up Treatment.

Permanent Make Up (also known as Micropigmentation, MicroBlading, Semi-Permanent Make Up) is a form of cosmetic tattooing that can last up to several years. Tiny dots of pure, hypo-allergenic pigment are inserted at high speed into the outer layer skin to give an effect that mimics the appearance of natural hairstroke brows, perfectly defined 'liquid' eyeliner and balanced, volumised lips infused with colour as well as other medical camouflage and correction effects.

Microblading

Also known as eyebrow embroidery is a fantastic treatment for anyone looking to improve or enhance the appearance of their eyebrows. It is a means of implanting pigment under the epidermis using a specially designed tiny blade which leaves thin realistic hair strokes for a natural finish. With this method, Judith can create almost any look, from a very natural, light finish to a beautifully bold brow.

Nano Brows

Pigment is implanted slightly deeper into the skin, therefore is a longer lasting alternative to microblading.

Ombré brows

Also known as powdered brows create a soft misty styled brow similar to the look of make up meaning the tails of the brow are darker, and fade into a light start to the brow, giving it a very subtle look.

Eyeliner

From subtle to dramatic, eyelash enhancement or eyeliner can dramatically define eyes, creating great looks that are long lasting and always perfect.

Lip Blush & Liner

Gloss and go! This treatment will enhance the shape and colour of your lips making them luscious!
